

Important Dates in LCN911

- **Upon Passage and Approval:** Rulemaking, Advisory Council, cleanup of statutes.
- **End of FY 2017 (June 30, 2017):**
 - \$5 million into grants to local govt./private providers for EsiNet/Routers
 - \$80,000 to Library for GIS
 - \$350,000 for Statewide 9-1-1
- **After distribution for final quarter of FY 2018 (June 30, 2018):** Money swept from existing 9-1-1 accounts and put into new 75/25 accounts. Current distribution into multiple accounts as directed by 10-4-301 and 10-4-313 continues until July 1, 2018. (Those sections of code are NOT repealed until July 1, 2018.)
- **July 1, 2018- July 1, 2022:** Money goes into the 75/25 accounts. Each PSAP gets share or allocation of the 75% account that was the same as they received in FY 2017 (based on collections).
- **July 1, 2018** Department must have rules in place for distribution to local govt. hosting a PSAP based on the 75/25 split and for grant criteria to private telecommunications providers and local governments. (Not rules for ALLOCATION, just for DISTRIBUTION)
- **January 1, 2022:** Dept. must have rules in place for allocation and distribution based on federal census to allocate the 75% account to local governments that host PSAPs.
- **January 1, 2019:** Dept. must have rules in place for technology standards (with parameters).
- **End of FY 2019 (June 30, 2019):** Money not spent on EsiNet/Routers, GIS, and Statewide 9-1-1 plan, reverts back to 25% fund for grants to local govts. (priority to those working with private providers.)
- **October 1, 2019:** [Section 9 through 13] terminate programs for EsiNet/Routers, GIS, and Statewide 9-1-1 plan.
- **July 1, 2022-July 1, 2032:** The 75% account is allocated and distributed quarterly based upon rules adopted by the department based on the federal census and other population factors.
