

# Montana Response to FirstNet Data Call

Prepared under the direction of the Statewide Interoperability  
Governing Board (SIGB) , an advisory board to Governor Bullock

**SIGB Chairman Sheriff Leo Dutton**

**SIGB Vice Chairman State CIO Ron Baldwin**

**State Single Point of Contact Ron Baldwin**

**Statewide Interoperability Coordinator Quinn Ness**

**Submitted to FirstNet September 30, 2015**

## Table of Contents:

1. Introduction
2. Section 1. Montana Statewide Governing Board Coverage Area Priority Recommendations to FirstNet with supporting data
3. Section 2. Montana Public Safety Agencies
4. Section 3. Mobile Data Survey Tabulated Results
5. Section 4. Notations and Lists of Montana Public Safety Entities

## **Introduction:**

The First Responder Network Authority, known as “FirstNet”, is a federally chartered corporation established by the Middle Class Tax Relief and Job Creation Act of 2012. Congress authorized FirstNet to design and deploy a public safety 4G wireless network dedicated to public safety. The authorization included 7 billion dollars and 20 MHz of spectrum located in the 700 Band. Congress also established the State and Local Implementation Program (SLIGP) in the form of grants to states and territories. The states and territories have a “consultation” role under the Statute.

One of the consultation duties the states and territories have is to answer data calls from FirstNet as the new organization writes an RFP for the selection of a private contractor. After the contractor is selected, sometime in mid-2016, the contractor and FirstNet will write deployment plans for each state and territory. The data call subject to this Report is an opportunity for public safety entities to have input to the FirstNet RFP for a private contractor; and, input to the yet to be written Montana Deployment Plan. FirstNet and its contractor are under no obligation to accept recommendations from Montana due to the number of cost and engineering variables involved in building random access networks. Nonetheless, FirstNet will consider state, local and tribal recommendations in the design and deployment phases.

Specifically, FirstNet has requested a minimum of five (5) Coverage Area Objectives be forwarded to FirstNet by September 30, 2015. These recommendations are to come through state and territory communication boards that have local and tribal representation and that are established under the recommended guidelines of the federal Office of Emergency Communications (OEC). In Montana, this Governor’s Advisory Board is called the Statewide Interoperability Governing Board (SIGB).

## **Section 1. SIGB Coverage Area Priority Recommendations:**

The Montana SIBG is a fifteen member board appointed by the Governor. The Board includes local public safety officials who are representing associations of sheriffs, police, fire, and emergency medical public safety professionals. The Governor's Director of Indian Affairs sits on the Board in part to be a conduit to Montana's seven (7) Tribal Nations about FirstNet developments.

The SIGB has discussed priority coverage area recommendations at its August and September, 2015 meetings. Based on those deliberations and supporting data, below are the SIGB recommended 4G LTE Priority Coverage Areas:

1. **Provide** the FirstNet Network to **sixty-three county seats/tribal headquarters** over seven (7) build-out phases.
2. **Provide coverage on Montana highways** in order of traffic usage with initial coverage to include Interstates, and other heavily traveled routes to Glacier National Park (GNP) and Yellowstone National Park (YNP) in the summers and heavily traveled routes to Montana's destination ski areas in the winter.
3. **Provide coverage to critical infrastructure** including dams, power plants, transmission lines, industrial sites and railroads.
4. **Provide coverage to rural** Incorporated Towns, Census Designated Places (CDP), farm and ranch areas; and, in areas not otherwise classified other than segment of the population lives in counties.
5. **Provide a full range of deployable** equipment that can operate outside of cell tower range.

**September 30, 2015**

Dams, power plants, Electrical Transmission lines, Industrial sites, railroads

Census Designated Places  
 10k to 1k  
 Estimated Population Covered: 95,634  
 Estimated Square Miles Covered: 594

Census Designated Places  
 999 to 0  
 Estimated Population Covered: 56,078  
 Estimated Square Miles Covered: 1,296

Balance of State  
 Estimated Population: 276,523  
 Estimated Square Miles Covered: 38,884

Other Towns populations: 26,670  
 Estimated Square Miles Covered: 35.28

Farm and Ranch  
 Estimated Population: 39,930  
 Estimated Square Miles Covered: 90,655

Heavy Traffic Count Areas  
 Emphasis on Interstates and routes to GNP and TYP

Medium Traffic Count Areas

Low Traffic Count Areas

Co-Seats 20k to 110k  
 Estimated Population Covered: 352,170  
 Estimated Square Miles Covered: 140,69

Co. + Tribal Seats 10k to 1k  
 Estimated Population Covered: 119,000  
 Estimated Square Miles Covered: 244,65

Co-Tribal Seats 1k to 0  
 Estimated Population Covered: 10,301  
 Estimated Square Miles Covered: 116

Chart \_ Montana SIGB recommended coverage area priorities by FirstNet suggested seven (7) phases.

## Demographic data that supports the SIGB coverage area recommendations:

Grouping				
Category	Count	Popula- tion	Square Miles	Pop/Sq Mi
Inc. City/Town	129	536,190	292	<b>1,836</b>
County Seats	56	472,117	222	<b>2,127</b>
7 Largest Cities	7	352,170	44	<b>8,004</b>
Census Designat- ed Place	235	151,702	1,891	<b>80</b>
# of Farm & Ranch	29,300	39,930	90,655	<b>0.44</b>
Federal Lands		0	40,601	<b>0</b>
7 Reservations	7	28,359	12,107	<b>2</b>
Balance of State	Rural	264,763	38,084	<b>7</b>
		<b>1,020,944</b>	<b>145,546</b>	<b>7</b>

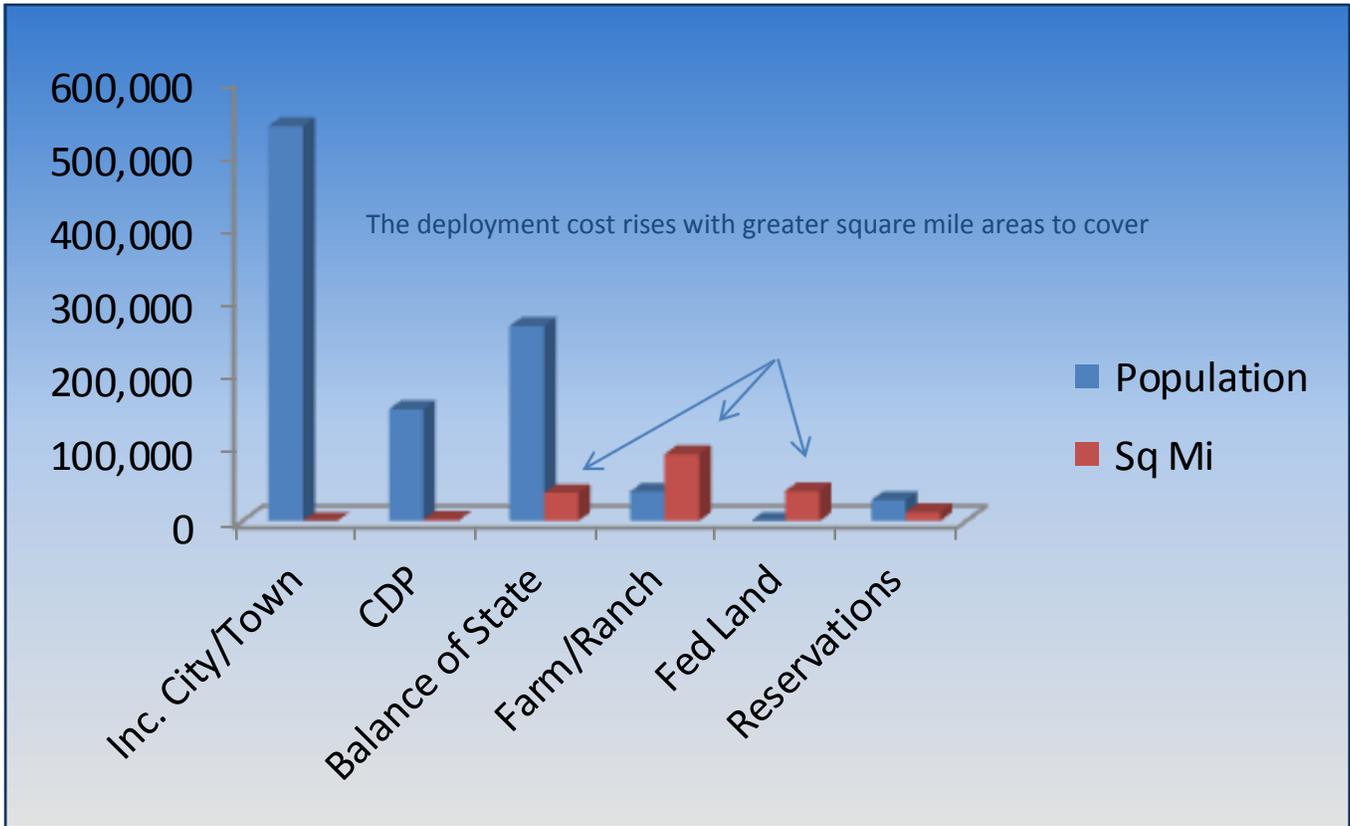

The Chart at left breaks out the Montana population by where people live. Interestingly, fifty-three (53) percent of the state population lives in incorporated cities and towns; fifteen (15) percent live in Census Designated Areas (CDP), four percent live on farms and ranches; 3% live on Tribal lands; and, **twenty-six percent live in rural areas not designated by any of the other grouping categories.**

Square mile areas are also displayed. Population density and square mile area

are inverse. Larger populations tend to live on small square areas whereas small populations tend to be scattered over large square mile areas. It costs less to provide wireless coverage over a small square mile area with larger populations than a large square mile area with a small population. This is why rural states like Montana pose a coverage problem for FirstNet.

After reviewing demographic data it was noted that covering fifty-six (56) county seats and seven (7) tribal headquarters would bring wireless public safety data and at some future time voice communications to over **forty-seven percent** of Montana's population. Moreover, this approach would allow each county and tribal government to exchange information with state and federal authorities.

**This Graph** illustrates the inverse relationship between population and square miles. Populated areas are placed on low square miles while sparsely populated areas are on large square mile areas. The economic challenge for FirstNet is covering Montana's vast square mile area.

Area	Population	Sq Mi
Inc. City/Town	536,190	292
CDP	151,702	1,891
Balance of State	264,763	38,084
Farm/Ranch	39,930	90,655
Fed Land	unk	40,601
Reservations	28,359	12,107

## Baseline Coverage Area Mapping:

FirstNet and its federal partner the Office of Emergency Communications (OEC), developed a baseline coverage map as a basis for the states and territories to recommend coverage area priorities..

FirstNet instructed the states and territories to add to its mapping factors if relevant. The Montana State and Local Implementation Grant Program (SLIGP) turned to the Montana State Library (MSL) Geo-Mapping Section to update the FirstNet-OEC Map. MSL had updated data as displayed in the Chart at left:

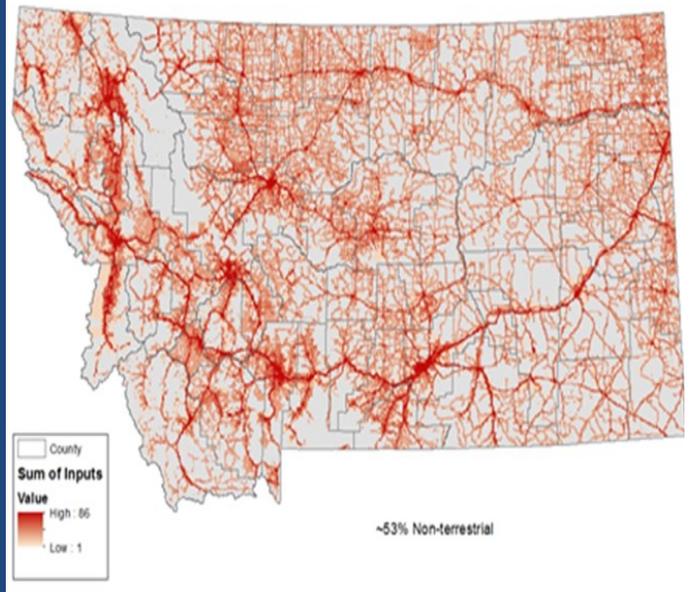

Here are the FirstNet Map and the Montana State Library Map side by

Input Datasets	
FirstNet	Montana State Library
2010 Census Block Population	2010 Census Block Population
High Risk Areas of Interest*	High Risk Areas of Interest*
National Highway and Traffic Counts	MDT Highway and Traffic Counts
2011 National Land Cover Dataset	2013 Montana Land Cover Framework
Public Safety User Density	Survey data
	9-1-1 call data (3-month averages)

### FirstNet Baseline Coverage Objectives

FirstNet/OEC Baseline Data Map of Montana

Montana State Library Baseline Data Map of Montana

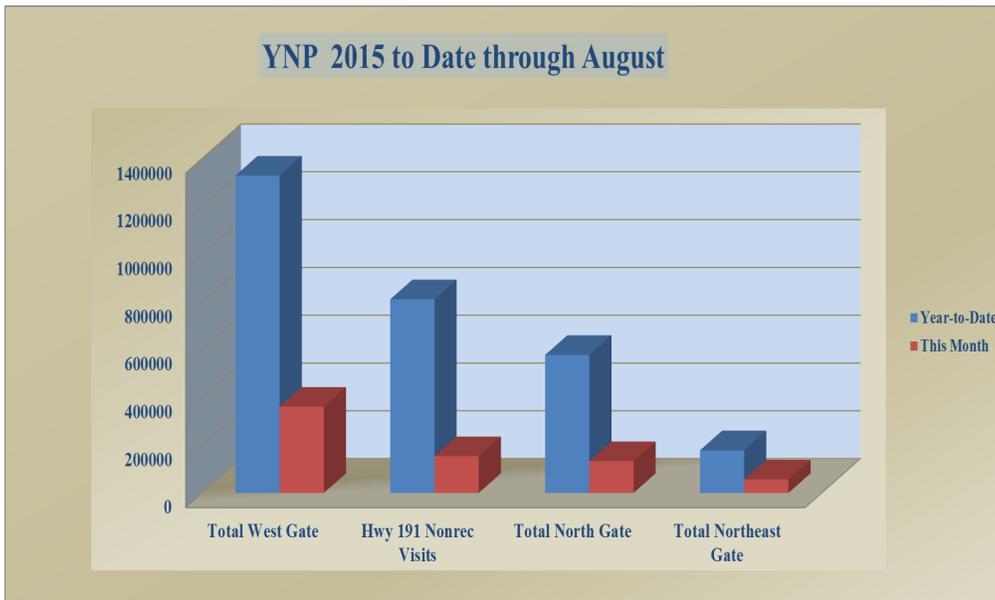

side: Note the MSL map is more detailed, displaying more data points per square mile than the OEC/FirstNet map. These maps, especially the MSL map were used by the SIGB to analyze and make priority coverage area recommendations. The MSL map clearly displays Montana population and road densities.

**Out -of-State Visitor Considerations:** according to the Montana Department of Commerce Tourism Office, over ten million non-residents visit Montana each year. There are over one million air passengers that de-plane each year at Montana airports. The other nine (9) million drive on the Inter-states and other Montana roads to their destinations. Data sets were available for Yellowstone and Glacier National Parks where tourists come through Montana /Park entrances. Here is the data:

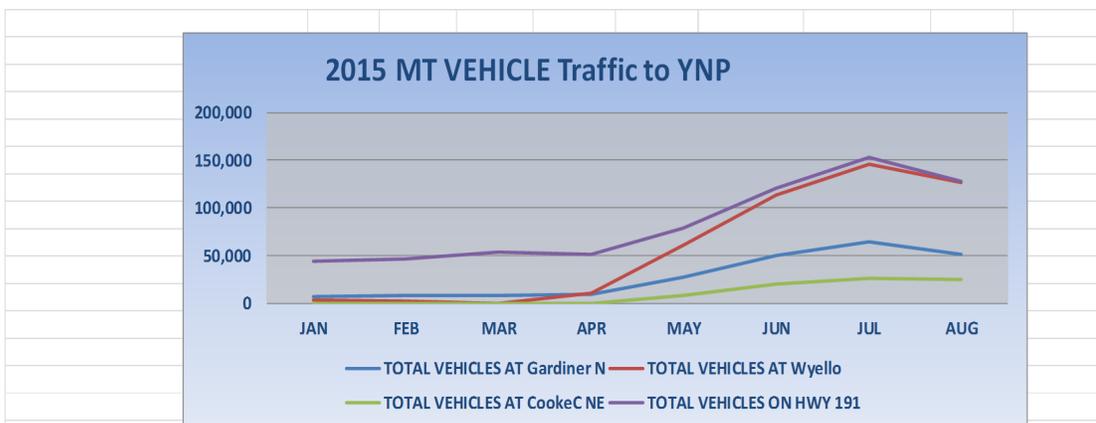

**Yellowstone National Park:**

Special Use Data	Year-to-Date	This Month
Total West Gate	1,327,602	360,800
Hwy 191 Nonrec Visits	810,190	153,952
Total North Gate	577,115	132,824
Total Northeast Gate	178,312	56,191
<b>Totals:</b>	<b>2,893,219</b>	<b>703,767</b>

Through August, for the year 2015, over 2.8 million visitors have entered YNP through Montana Park Gates. The largest volume of tourists-1.327 million- entered through West Yellowstone.

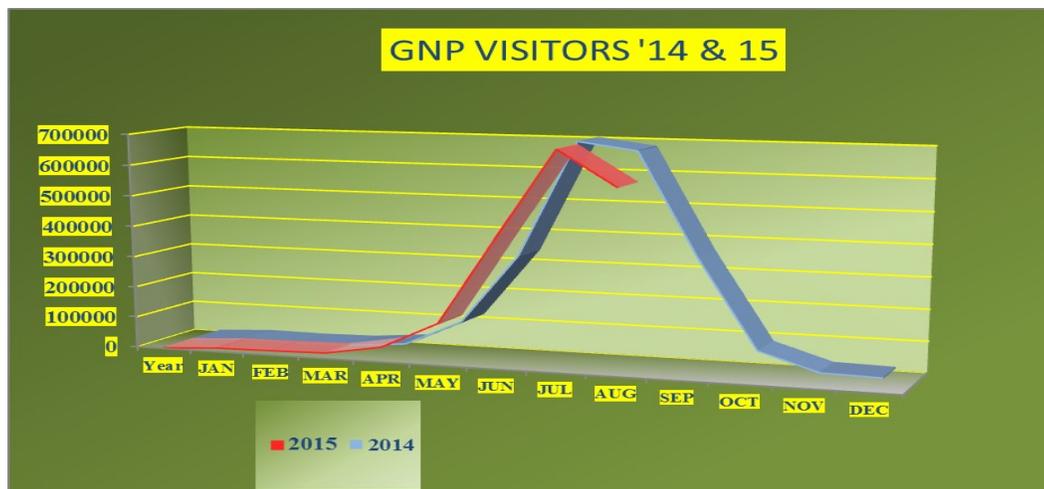

The data indicates that the highest visitor volume comes through the West Park Gate that is near the town of West Yellowstone.

The Vehicle Traffic data demonstrates how the population swells during the tourist season in Montana.

Gates	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	TOTAL
TOTAL VEHICLES AT Gardiner N	6,586	8,089	8,042	9,688	27,015	50,417	64,720	51,116	225,673
TOTAL VEHICLES AT Wyeello	3,875	2,755	252	10,389	60,644	113,766	145,270	127,204	464,155
TOTAL VEHICLES AT CookeC NE	0	0	0	0	8,456	19,879	25,680	24,562	78577
TOTAL VEHICLES ON HWY 191	44,052	46,013	53,797	51,364	78,850	120,165	152,626	128,294	675,161
<b>TOTAL</b>									<b>1,443,566</b>

## Glacier National Park:

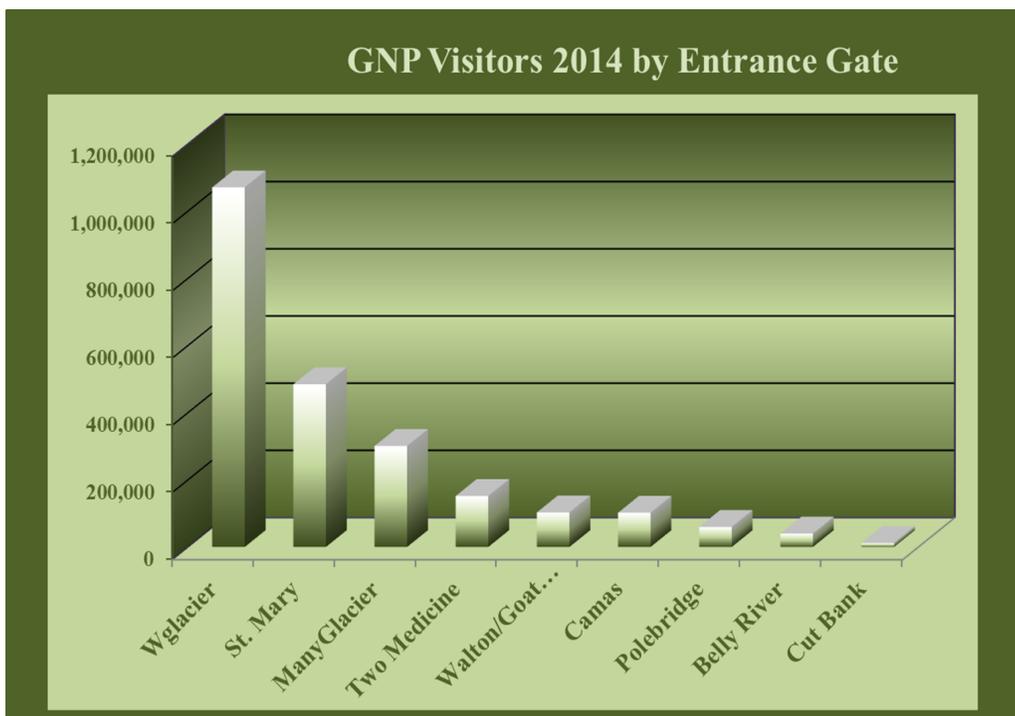

GNP tracks visitors on a monthly basis in its data sets. Here is a look at 2014 and 2015 GNP visitor numbers:

This Graph also demonstrates how Montana visitors

Year	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC	Total
2015	12,087	14,530	18,139	48,270	134,741	414,671	689,064	579,007					1,910,509
2014	12,111	10,242	13,214	28,667	112,187	334,074	699,650	675,119	353,497	72,694	15,706	11,367	2,338,528

surge into the state during the summer months. Glacier National Park can only be accessed through Montana Gates.

The West Glacier Gate

	GNP Visitors 2014
West Glacier	1,070,590
St. Mary	484,529
Many Glacier	300,767
Two Medicine	151,964
Walton/Goat lick	103,014
Camas	101,987
Polebridge	59,741
Belly River	40,000
Cut Bank	12,000
<b>Total:</b>	<b>2,324,593</b>

sees over one million visitors, twice as many as the gates on the east side of the continental divide. West Glacier can only be accessed through the Flathead Valley.

The Montana Bed Tax numbers are in dollars and tracked by economic region. Nonetheless, the data affirms National Park visit data. The Glacier and Yellowstone regions yield the highest Bed Tax revenue.

\* Data Source: MT Department of Commerce, Office of Tourism

Quarter Start	January	April	July	October
2014 Bed Tax Revenue	Q1	Q2	Q3	Q4
Central	426,630	569,089	741,857	455,208
Glacier	868,529	1,628,303	4,071,727	904,773
Missouri	141,155	203,574	259,589	218,488
Southeast	824,669	1,285,979	1,547,000	935,787
Yellowstone	1,416,382	1,865,315	3,718,711	1,017,942

### Montana Skier Visits 2014:

Ski Season starts after Thanksgiving and extends through March with some areas staying open into April, depending on snow pack. The data indicates that Big Sky has the

most skier volume with Big Mountain just north of Whitefish seeing the second most skiers. Bridger Bowl is next in vol-

2014-15 Season	
Ski Area	Visits
Big Sky	440,000
Whitefish	310,290
Bridger	204,501
Red Lodge	87,805
Lookout	57,738
Discovery	55,738
Snow Bowl	50,719
Lost Trail	40,488
Showdown	40,207
GD	40,000
Black Tail	33,241
Maverick	6,772
Turner Mountain	1,337

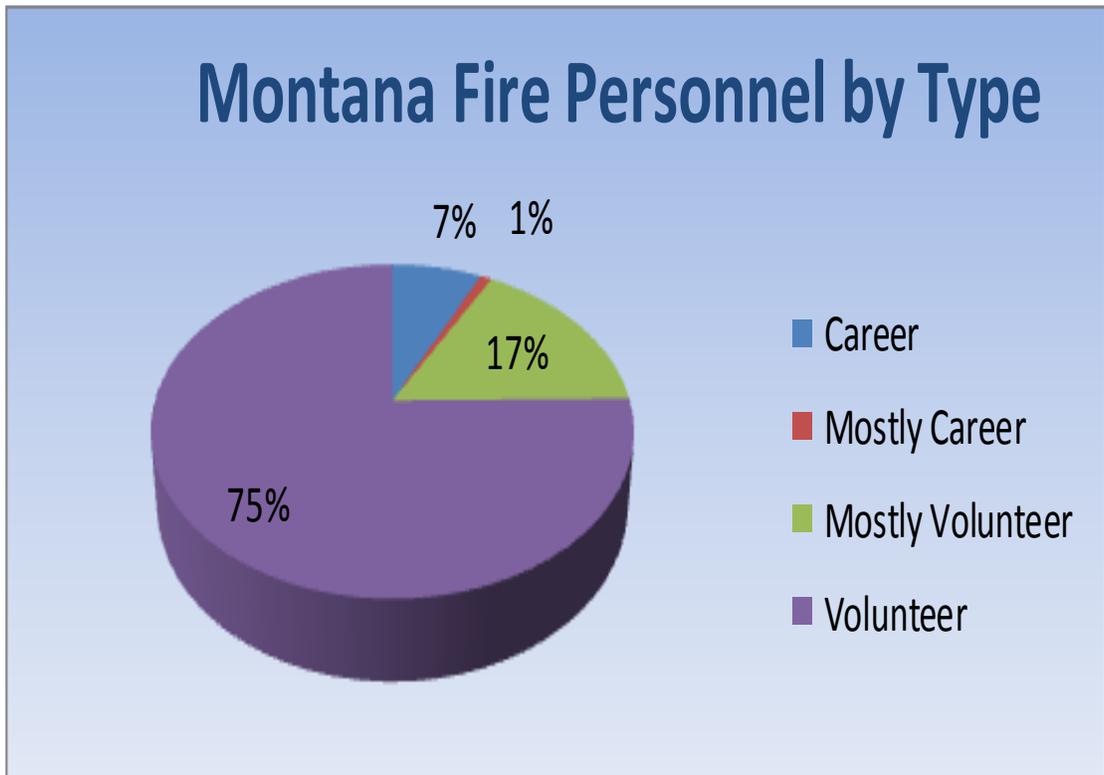

In conclusion, Montana experiences an influx of visitors during the year that increases the population as much as 10X as a cumulative number over twelve (12) months. **Available data sets indicate that high traffic areas include West Yellowstone, Bozeman, Big Sky, Bridger Bowl, the Kalispell area, West Glacier and Big Mountain north of Whitefish.** These high impact areas with out-of-state visitors are incorporated into the SIGB recommended coverage area objectives (see Chart of Coverage Area Objectives under second priority-Highways).

**Section 2. Montana Public Safety Entity Agencies:**

As part of the data call, FirstNet has requested basic information about Montana public safety entities. This includes a list of agencies with addresses, contact information and staffing levels. The PSE Associations have varying degrees of membership information. Several federal data bases aided in presenting a snap shot of Montana PSE's. Namely, the United States Fire Administration (USFA) Census Data and the 2013 UCR Master File of Montana Law Enforcement Agencies are used:

Montana Fire Fighters	Personnel	Agency
Type		
Career	474	13
Mostly Career	59	3
Mostly Volunteer	1,103	27
Volunteer	4,962	435
<b>Totals:</b>	<b>6,598</b>	<b>478</b>

**USFA Summary Data on Fire Personnel:**

## 2013 UCR Master File data on Montana Law Enforcement:

Population	Officers	Civilians	Total:
110k-20k	858	569	1,427
19k-10k	57	43	100
9k-1k	610	263	873
999-0	28	7	35
<b>Total:</b>	<b>1,553</b>	<b>882</b>	<b>2,435</b>

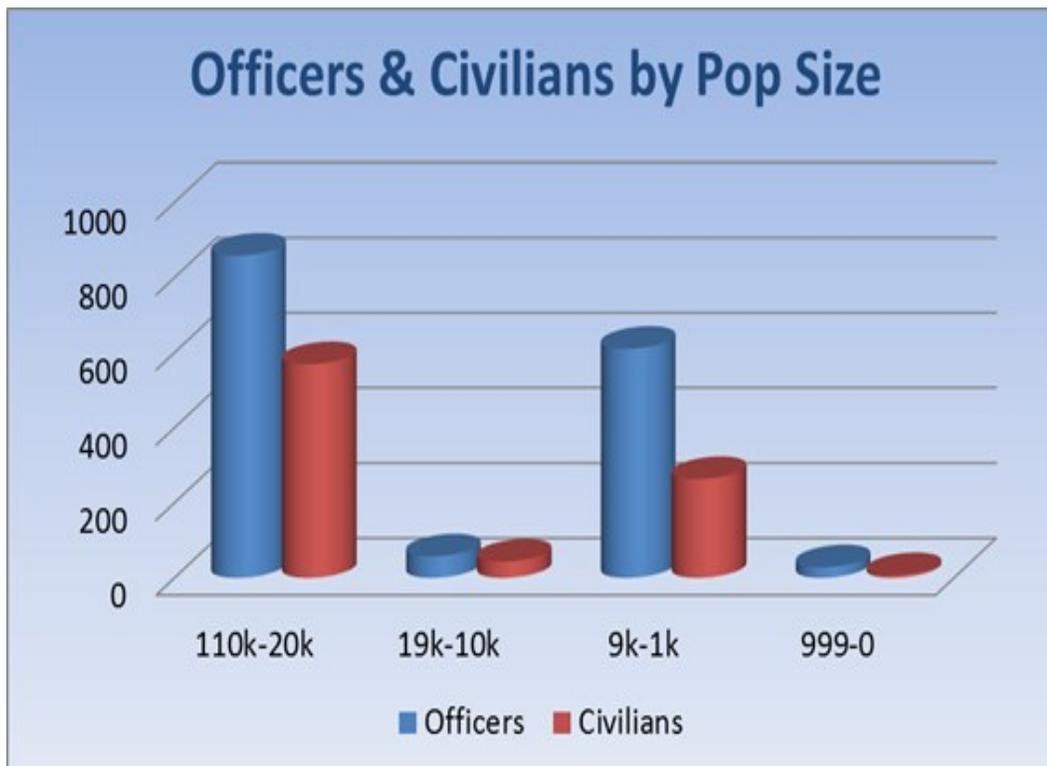

This data base included population figures. Note the Law Enforcement personnel follow the population demographics.

Emergency Medical Services: A census of public and private emergency medical personnel is

not available.

However, a current licensing registration list reveals there are ninety-five (95) Emergency Medical Services Agencies in Montana.

These EMS service providers are headquartered in thirty-four Montana Counties and

serve both urban and rural areas.

In total, according the UCR Master File, the USFA Census and EMS Licensing data, there are over 9,033 public safety personnel working at 713 public safety agencies/departments/fire districts in Montana. Approximately six thousand (6,000) of those personnel are volunteer fire fighters. This information is important to FirstNet as it looks at potential users of the FirstNet Network.

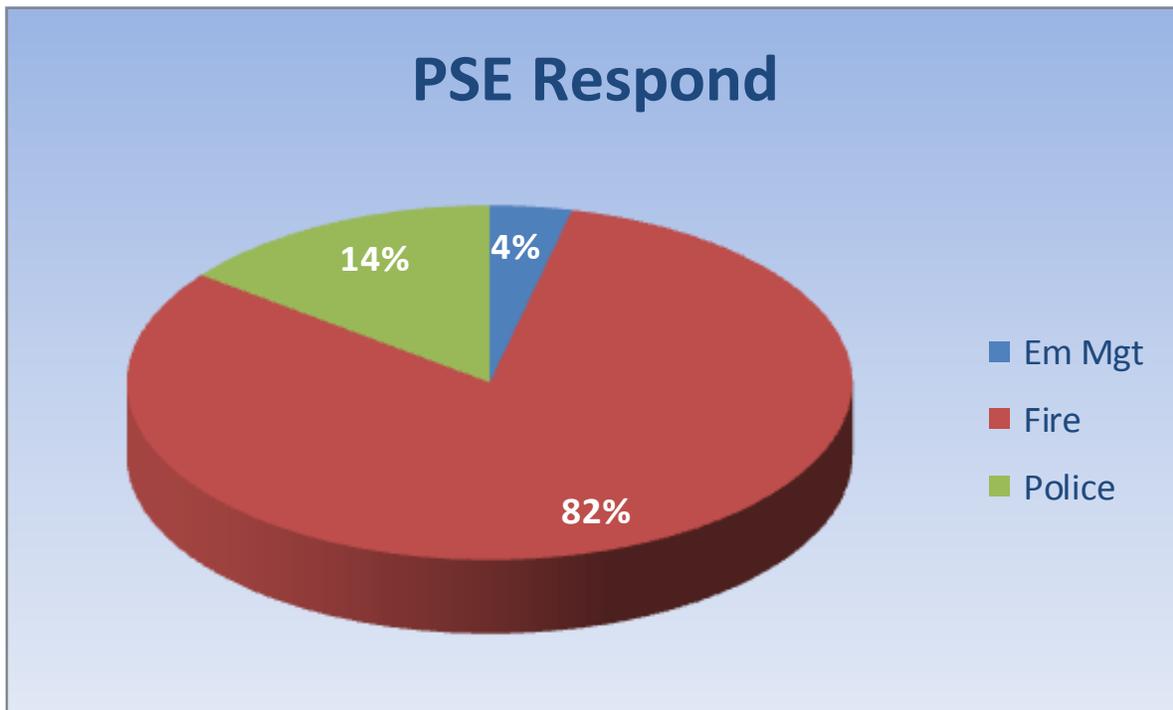

Lists of Law Enforcement, Fire and EMS agencies are included in the Appendix.

### Section 3. Mobile Data Survey

FirstNet requested that Montana PSE's take a survey about current wireless device usage. The survey is located on-line at [PublicSafetyTools.Info](http://PublicSafetyTools.Info). This website is maintained by the Office of Emergency Communications (OEC).

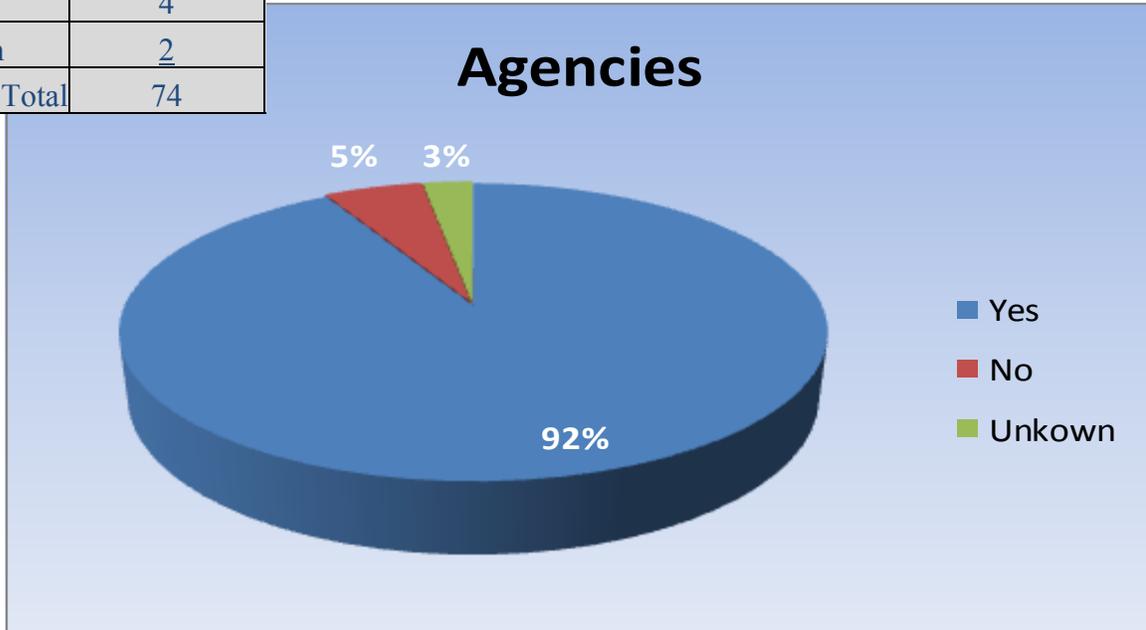

To date, eighty-two PSE's have taken the survey. A list of those agencies is included in the Appendix. FirstNet will directly access cost and usage information from OEC. Below are tabulations about what agencies took the survey and to seven (7) questions posed by the MDS:

Type	PSE Respond
Emergency MGT	3
Fire	67
Police	12
<b>Total:</b>	<b>82</b>

### Notations and Definitions:

**Note:** the Farm and Ranch population and square mile area is taken from the Montana 2012 Agricultural Statistics. When working in multiple data sources there can be anomalies. In order to conform with US Census information, the total square miles from the Farm and Ranch Statistics has been reduced by 5,260 square miles resulting in the Chart figure above of 90,655. The sq. mile area for farm and ranch and federal lands includes the 38,084 sq. mile figure for Balance of State.

**The CDP, City and Town data** are taken from the U.S. Census 2010. The County Seats data is taken from the Montana League of Cities and Towns website. Note there is a variance of about 5,000 between the two sources. The Census uses 989,415 for a base while updated population totals are currently at 1,020,944 for the Montana population.

Also note that Butte/Silver Bow and Anaconda/Deer Lodge are consolidated so square mile area includes all of the two counties—not just Butte and Anaconda.

**Census designated place**—A statistical geographic entity with a concentration of population, housing, and commercial structures that is identifiable by name, but is not within an incorporated place. Federal Register/Vol. 72, No. 66/Friday, April 6, 2007/Notices

## Montana Sheriffs
