ECM Ad-Hoc Reporting

Ad hoc reporting provides the ability to create a report at any instance and present information for analysis and discovery of insights.

SITSD provides options to help your agency with ECM Ad-Hoc Reporting.

ECM Ad-Hoc Reporting is now available.

Visit the Tableau catalog item in the **SITSD Service Catalog** for more information.

The setup of each new site and publishing of the first data source is included by purchasing service catalog item **Application Hosting App Server Initial Setup**. An additional data source may be published in a site by purchasing the service catalog item **Application Hosting .NET Initial Setup**. The setup fees are waived if SITSD develops the dashboards for you.

Open a case with the **SITSD Service Desk** for a quote or with questions.
